HALO-LED™ Whole Home In-Duct Air Purifier (\$1800)

Help protect your air and the environment

As the leader in innovative solutions to indoor air quality problems, it's no surprise that RGF® has taken air purification to the next level. The HALO-LED™ Whole Home In-Duct Air Purifier uses our new revolutionary REME-LED® technology to help protect the air for you and your family. REME-LED® provides a longer product life with improved energy efficiency, zero ozone creation and no mercury (sometimes found in traditional UV lamps).

You get proactive air treatment in your home combining low levels of airborne hydrogen peroxide with ionization to reduce viruses, bacteria, mold spores, dust, dander and pollen. The difference is we now use a revolutionary, energy efficient UV-C LED that turns on and off with your blower and a new washable hybrid ceramic catalyst.

How it works:

Just like the REME-HALO®, the HALO-LED™ dispenses natural concentrations of gaseous hydrogen peroxide throughout your home, reducing viruses, bacteria, mold spores and odors in minutes. Low levels of airborne hydrogen peroxide are quietly distributed throughout the air-conditioned space so you get the fresh air where you need it.

TRANE CleanEffects (\$2,100)

AIR FILTRATION

CLEANEFFECTS™

- Removes up to an incredible 99.98% of allergens from filtered air.
- Traps particles as small as .1 micron in size.
- Up to 100 times more effective than a standard 1" filter.
- Can reduce your need to dust by up to 50%.
- Performance verified by leading experts at the Harvard School of Public Health.
